DJENNYLIND is the DJ and live electronic project of New Orleans mezzo-soprano Megan Ihnen: funky horn bass, dubstep, and future bass with a distinctly New Orleans sensibility. The signature offering is the live set, with Megan singing live over her own DJ performance. It moves between genres with intention and lands somewhere physical, precise, and unexpected. It works in a gallery, on a festival stage, or at a corporate event where the organizers want something people will actually remember. Audiences who came to dance find themselves inside an experience.

PERFORMANCE FORMATS

- **DJ Set:** funky horn bass, dubstep, and future bass for dancefloors, festival stages, and ambitious arts events
- **DJ + Live Vocal:** the signature format, a full set with Megan singing live over electronic tracks
- **Hybrid:** electronic production blended with live vocals, tailored to the room
